**Section 3: Consent/Permission**

**Consent for Athletic Participation, Conditioning, Training and Health Care Procedures**

I hereby give consent for my child to participate in the school's athletic program (including off-season conditioning and training) and to receive any necessary healthcare treatment including first aid, diagnostic procedures and medical treatment that may be provided by the treating physicians, nurses, athletic trainers or other healthcare providers employed directly or through a contract with the school or opposing team's school. The healthcare providers have my permission to release my child's medical information to other healthcare practitioners and school officials. In the event I cannot be reached in an emergency I give permission for my child to be transported to the nearest emergency room based on local EMS protocols to receive necessary treatment.

**Permission to Receive and Release Medical Records**

I understand that Wake Christian Academy athletic trainers, the approved healthcare provider for Wake Christian Academy, may request information regarding the athlete's health status from a physician's office and I hereby give permission for the receipt and release of this information as it pertains to my child's ability to safely participate in athletics. In addition, should treatment be necessary, I give my permission for a physician's office to release medical information to allow for the timely treatment of my child by the approved health care provider for Wake Christian Academy. This request is to facilitate open communication between the athletic trainer and the treating physician in order to optimize patient care. This information cannot and will not be released to other parties without first being approved by the guardian or parent of the athlete. I understand that a copy of this form will be given to my child's coach in the event that healthcare treatment is needed.

**I understand that I will be notified of the necessity of obtaining medical records.**

## Strength & Conditioning Guidelines

Student's Name : \_\_\_\_\_

Strength and conditioning programs are key elements to the success of all athletic teams. The focus of the Wake Christian Academy program is to prepare our student athletes for the physical demands of sports competition, increase overall individual fitness and reduce the risk of athletic injury. Our programs are designed for pre-season, in-season and off-season student athletes, and are conducted throughout the entire calendar year. A typical training schedule may include:

General Warm-up  
Dynamic Warm-up  
Specific Warm-up  
Conditioning  
Strength and Power Training  
Stretching

In order to begin any strength and conditioning program the student athlete must have four documents on file with the Athletic Office.

1. A current Physical Exam Form (physical occurred within the last 12 months) signed and dated by physician.
2. Parent Permission Form completed and signed by both parent/guardian and student athlete.
3. School Athlete Medical Card completed and signed by both parent/guardian and student athlete.
4. Strength & Conditioning Permission Form complete and signed by both parent/guardian and student athlete.

It should be understood that having passed a physical examination does not necessarily mean that an athlete is physically ready to engage in strength and conditioning activities.

**Athletes are strongly encouraged to have done some preparation of their own, taking into consideration the importance of proper hydration, nutrition, general physical condition and acclimatization to the current work environment. All athletes will be evaluated to determine their current level of physical condition and monitored throughout the duration of the program.**

### Student Acknowledgement:

I, \_\_\_\_\_ have read and understand the Wake Christian Academy  
(print full name of student)

Strength & Conditioning Regulations and agree to comply with them as written. I acknowledge that my failure to comply with these rules/instructions may result in loss of strength and conditioning privileges. I am fully aware of the risks involved in any form of physical activity. I understand that even with the best instructions, proper use of equipment, and strict adherence to rules and regulations, injuries are still a possibility. I agree to accept these risks as a condition of my participation in the after school/summer strength and conditioning program.

### CONCUSSION

#### INFORMATION FOR *STUDENT-ATHLETES & PARENTS/LEGAL CUSTODIANS*

**What is a concussion?** A concussion is an injury to the brain caused by a direct or indirect blow to the head. It results in your brain not working as it should. It may or may not cause you to black out or pass out. It can happen to you from a fall, a hit to the head, or a hit to the body that causes your head and your brain to move quickly back and forth.

**How do I know if I have a concussion?** There are many signs and symptoms that you may have following a concussion. A concussion can affect your thinking, the way your body feels, your mood, or your sleep. Here is what to look for:

Thinking/Remembering	Physical	Emotional/Mood	Sleep
Difficulty thinking clearly	Headache	Irritability-things bother you more easily	Sleeping more than usual
Taking longer to figure things out	Fuzzy or blurry vision	Sadness	Sleeping less than usual
Difficulty concentrating	Feeling sick to your stomach/queasy	Being more moody	Trouble falling asleep
Difficulty remembering new information	Vomiting/throwing up	Feeling nervous or worried	Feeling tired
	Dizziness	Crying more	
	Balance problems		
	Sensitivity to noise or light		

*Table is adapted from the Centers for Disease Control and Prevention (<http://www.cdc.gov/concussion/>)*

**What should I do if I think I have a concussion?** If you are having any of the signs or symptoms listed above, you should tell your parents, coach, athletic trainer or school nurse so they can get you the help you need. If a parent notices these symptoms, they should inform the school nurse or athletic trainer.

**When should I be particularly concerned?** If you have a headache that gets worse over time, you are unable to control your body, you throw up repeatedly or feel more and more sick to your stomach, or your words are coming out funny/slurred, you should let an adult like your parent or coach or teacher know right away, so they can get you the help you need before things get any worse.

**What are some of the problems that may affect me after a concussion?** You may have trouble in some of your classes at school or even with activities at home. If you continue to play or return to play too early with a concussion, you may have long term trouble remembering things or paying attention, headaches may last a long time, or personality changes can occur. Once you have a concussion, you are more likely to have another concussion.

**How do I know when it's ok to return to physical activity and my sport after a concussion?** After telling your coach, your parents, and any medical personnel around that you think you have a concussion, you will probably be seen by a doctor trained in helping people with concussions. Your school and your parents can help you decide who is best to treat you and help to make the decision on when you should return to activity/play or practice. Your school will have a policy in place for how to treat concussions. You should not return to play or practice on the same day as your suspected concussion.

***You should not have any symptoms at rest or during/after activity when you return to play, as this is a sign your brain has not recovered from the injury.***

*This form must be completed for each student-athlete, even if there are multiple student-athletes in each household.*

Parent/Legal Custodian Name(s): \_\_\_\_\_

- ☐ We have read the *Student-Athlete & Parent/Legal Custodian Concussion Information Sheet*.  
*If true, please check box.*

After reading the information sheet, I am aware of the following information:

Student-Athlete Initials		Parent/Legal Custodian Initials
	A concussion is a brain injury, which should be reported to my parents, my coach(es), or a medical professional if one is available.	
	A concussion can affect the ability to perform everyday activities such as the ability to think, balance, and classroom performance.	
	A concussion cannot be "seen." Some symptoms might be present right away. Other symptoms can show up hours or days after an injury.	
	I will tell my parents, my coach, and/or a medical professional about my injuries and illnesses.	N/A
	If I think a teammate has a concussion, I should tell my coach(es), parents, or medical professional about the concussion.	N/A
	I will not return to play in a game or practice if a hit to my head or body causes any concussion-related symptoms.	N/A
	I will/my child will need written permission from a medical professional trained in concussion management to return to play or practice after a concussion.	
	Based on the latest data, most concussions take days or weeks to get better. A concussion may not go away right away. I realize that resolution from this injury is a process and may require more than one medical evaluation.	
	I realize that ER/Urgent Care physicians will not provide clearance if seen right away after the injury.	
	After a concussion, the brain needs time to heal. I understand that I am/my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms on the Concussion Information Sheet.
